#### Brief Course Description

This course provides students an overview of the three key elements of the criminal justice system, namely police, courts and corrections. Exploration of these elements is shaped through the lens of criminal law within Australia and Queensland, and how this is applied and enacted in the criminal justice system.

## **Rationale**

Students studying criminology are challenged to develop an understanding of the function of the elements of the criminal justice system. This course begins the unpacking of these elements with a focus on the relationship between the law (as the governing framework of conduct), police (as upholders of the law) and the courts (as enforcers of the law). This subject is contextualised within the Australian and Queensland experience providing a foundation for students in understand these jurisdictions.

---

## **Aims**

This course aims to provide students with a foundational understanding of criminal law and criminal justice within the Australian and Queensland context. Students should develop an understanding of the system and processes, and a capacity to critique these aspects.

---

## **Learning Outcomes**

Upon successful completion of this course you will be able to:

1. Understand the aims and functions of the criminal law and how it operates in the Australian criminal justice system.
  2. Demonstrate knowledge about criminal responsibility, the elements of crimes and the classification of offences.
  3. Demonstrate familiarity with the processes by which alleged offences are investigated, brought to trial, punished and ability to critically analyse the impact of criminal law processes on people affected by them.

## **Organisation and Teaching Strategies**

To achieve the course objectives, a lecture complemented by the required text will deliver the primary course content. The **lecture** will develop your understanding of the topics covered within the course. The **tutorials** are oriented towards solving problems that are related to concepts and issues that have been introduced in lectures and the required reading. The tutorial will also provide you with the opportunity to ask any unresolved questions and develop a solid foundation for understanding the lecture, textbook and other material.

## ***Class Contact Summary***

### **Attendance:**

Your attendance in class will be marked twice during a four hour class. To receive full attendance, you must be present in the classroom on both occasions.

### **Program Progression:**

You are reminded that satisfactory Program Progression requires that attendance in classes is maintained at equal to or greater than 80%, and that GPA is maintained at equal to or greater than 3.5 [please see Griffith College Policy Library - Program Progression Policy - for more information].

### **Lecture Notes & Course Materials:**

You are required to bring a copy of the lecture notes printed from the course notes on the Griffith College Portal and any other required course materials to classes each week.

Griffith College is committed to maintaining high academic standards to protect the value of its qualifications. Academic integrity means acting with the values of honesty, trust, fairness, respect and responsibility in learning, teaching and research. It is important for students, teachers, researchers and all staff to act in an honest way, be responsible for their actions, and show fairness in every part of their work. Academic integrity is important for an individual's and the College's reputation.

All staff and students of the College are responsible for academic integrity. As a student, you are expected to conduct your studies honestly, ethically and in accordance with accepted standards of academic conduct. Any form of academic conduct that is contrary to these standards is considered a breach of academic integrity and is unacceptable.

Some students deliberately breach academic integrity standards with intent to deceive. This conscious, pre-meditated form of cheating is considered to be one of the most serious forms of fraudulent academic behaviour, for which the College has zero tolerance and for which penalties, including exclusion from the College, will be applied.

However, Griffith College also recognises many students breach academic integrity standards without intent to deceive. In these cases, students may be required to undertake additional educational activities to remediate their behaviour and may also be provided appropriate advice by academic staff.

As you undertake your studies at Griffith College, your lecturers, tutors and academic advisors will provide you with guidance to understand and maintain academic integrity; however, it is also your responsibility to seek out guidance if and when you are unsure about appropriate academic conduct.

Please ensure that you are familiar with the [Griffith College Academic Integrity Policy](#); this policy provides an overview of some of the behaviours that are considered breaches of academic integrity, as well as the penalties and processes involved when a breach is identified.

For further information please refer to the Academic Integrity Policy on the Griffith College Portal – Policy Library.
