Prerequisites

To successfully enrol in this Course, you must provide evidence that you have completed the following Courses:

- 1101AFE - Accounting Principles

Brief Course Description

Financial Accounting is a 10 Credit Point course within the Associate Degree in Commerce and Business. The course is situated within the second year of the program. The Associate Degree in Commerce and Business is designed to provide students with a pathway to:

- further university studies in Commerce, Business and related degrees; or
- direct employment.

2102AFE examines contemporary accounting and information disclosure issues applicable to organisations preparing financial statements. Issues include the accounting conceptual framework, acquisition of assets, leases, cash flows, revenue, share capital and reserves, statement of comprehensive income and changes and equity.

Rationale

This course will build on students' knowledge of accounting principles and guide students through financial accounting issues. This course is a core course if students wish to undertake an Accounting Major in the Bachelor of Commerce program at Griffith University as it satisfies the requirement for membership to professional accounting bodies such as CPA Australia and the Institute of Chartered Accountants Australia.

Aims

The course aims to provide students with a broad understanding of Accounting Standards and reporting issues faced by business structures other than sole traders. The course will also further develop competent financial accounting skills and expertise at the intermediate level by developing students' ability to analyse specific problems and apply the relevant Accounting Standards to practical accounting treatments such as assets, leases, cash flows, revenue, share capital and reserves, statement of comprehensive income and changes and equity.

Learning Outcomes

On successful completion of the course students will be able to:

1. Understand the regulatory requirements relating to Australian Financial Reporting;
 2. Demonstrate knowledge of the Australian Conceptual Framework;
 3. Define the financial statement elements (asset, liability, equity, income and expense) and be aware of the respective recognition principles;
 4. Demonstrate knowledge of accounting treatments for, assets, revenue and leases;
 5. Prepare published financial statements (including statement of cash flows); and
 6. Work with colleagues to develop personal and interpersonal team skills and the ability to solve problems collaboratively.

Organisation and Teaching Strategies

Each week, you are required to attend 4 hours of contact time in class consisting of lectures, tutorials and workshops. During **lectures** you will be introduced to the essential areas of the course content and be given information about, and explanations of, the principal topics that are relevant to achieving the learning objectives of the course. The **tutorial** sessions offer you the opportunity to further explore these issues and debates in an informal small-group environment. **Workshop** sessions will provide you with the opportunity to develop a range of skills that will support learning objectives and foster certain generic skills that are helpful to your professional development.

Class Contact Summary

This course, like any other accounting course, needs regular study and application through the completion of tutorial questions. As the course progresses, the topics become more complex and an understanding of the earlier topics is essential. Therefore, throughout the semester you are expected to:

1. Pre-read the relevant materials which are available on the website prior to lectures;
2. Complete the weekly tutorial questions prior to attendance at tutorials; and
3. Attend ALL lectures, tutorials and workshops.

You are also reminded that your attendance in class will be marked twice during a four hour class. To receive full attendance, you must be present in the classroom on both occasions.

Program Progression:

You are reminded that satisfactory Program Progression requires that attendance in classes is maintained at equal to or greater than 80%, and that GPA is maintained at equal to or greater than 3.0 with passing grades achieved in more than 50% of courses in any semester [please see Griffith College Policy Library - Program Progression Policy - for more information].

Lecture Notes & Course Materials:

You are expected to use the textbook and prescribed reading materials as reference points for each topic therefore you should bring these resources to every lecture. You are also required to bring a copy of the lecture notes printed from the Griffith College website to classes each week.

Independent Study:

You are expected to reinforce your learning gained during class time by undertaking sufficient independent study. For this 10 CP course, you will need to spend at least 10 hours per week engaged in activities that will help your learning and fulfil the course objectives. Thus, provided you have well used the 4 hours per week of formal contact, you would then complete at least 6 hours per week of independent study.

Assessment

This section sets out the assessment requirements for this course.

Summary of Assessment

Item	Assessment Task	Weighting	Relevant Learning Outcomes	Due Date
1	Mid Exam	25%	1,2,3,4	Week 6
2	Assignment	20%	1,2,3,4,5,6	Week 4
3	Final Exam	50%	1,2,3,4,5,6	Exam Period
4	Tutorial homework	5%	1,2,3,4,5,6,8	Weekly

Assessment Details

Tutorial Homework:

Students will be awarded 1% for 5 out of 7 of the tutorial homework set throughout the semester. The lecturer will randomly choose 7 weeks to look at your homework and if you have diligently attempted the homework you will score 1% for each up to a maximum of 5%.

Mid Semester Exam:

The mid semester exam is a closed book exam which will cover topics in weeks 1 - 4 and will provide an early indication of your level of comprehension with the course material. The exam will be 1 hour 40 minutes in length.

Assignment:

The assignment requires students to write a client focused business report in relation to a 'real world' accounting issue that:

1. Demonstrates their understanding and ability to explain the relevant Australian regulatory requirements for this issue;
2. Identifies and applies the relevant specific technical accounting treatment required for the accounting issue in question; and
3. Critically evaluates the information relevant to the 'real world' accounting issue in order to provide a response to the client.

Students will be expected to seek and use resources beyond those supplied as part of the course materials. The purpose of this Business Report is to develop in students effective written communication and critical judgement skills that enable them to address 'real world' accounting issues.

The assignment details and marking criteria will be made available to students in Week 1.

Final Exam:

The final exam will be 2 hours duration plus 10 minutes perusal covering topics from week 7 onwards.

Submission and Return of Assessment Items

Normally you will be able to collect your assignments in class within fourteen [14] days of the due date for submission of the assignment.

Retention of Originals:

You must be able to produce a copy of all work submitted if so requested. Copies should be retained until after the release of final results for the course.

Extensions

To apply for an extension of time for an assignment, you must submit an Application for Extension of Assignment form to your teacher at least 24 hours before the date the assignment is due. Grounds for extensions are usually: serious illness, accident, disability, bereavement or other compassionate circumstances and must be able to be substantiated with relevant documentation [e.g. Griffith College Medical Certificate]. Please refer to the Griffith College website - Policy Library - for guidelines regarding extensions and deferred assessment.

Assessment Feedback

Marks awarded for in-trimester assessment items, except those being moderated externally with Griffith University, will be available on the Student Portal within fourteen [14] days of the due date. This does not apply to the final assessment item in this course (marks for this item will be provided with the final course result).

Generic Skills

Teacher and Course Evaluations:

Your feedback is respected and valued by your lecturers and tutors. You are encouraged to provide your thoughts on the course and teaching, both positive and critical, directly to your lecturer and tutor or by completing course and lecturer evaluations via Griffith College's online evaluation tool whenever these are available.

Academic Integrity

Griffith College is committed to maintaining high academic standards to protect the value of its qualifications. Academic integrity means acting with the values of honesty, trust, fairness, respect and responsibility in learning, teaching and research. It is important for students, teachers, researchers and all staff to act in an honest way, be responsible for their actions, and show fairness in every part of their work. Academic integrity is important for an individual's and the College's reputation.

All staff and students of the College are responsible for academic integrity. As a student, you are expected to conduct your studies honestly, ethically and in accordance with accepted standards of academic conduct. Any form of academic conduct that is contrary to these standards is considered a breach of academic integrity and is unacceptable.

Some students deliberately breach academic integrity standards with intent to deceive. This conscious, pre-meditated form of cheating is considered to be one of the most serious forms of fraudulent academic behaviour, for which the College has zero tolerance and for which penalties, including exclusion from the College, will be applied.

However, Griffith College also recognises many students breach academic integrity standards without intent to deceive. In these cases, students may be required to undertake additional educational activities to remediate their behaviour and may also be provided appropriate advice by academic staff.

As you undertake your studies at Griffith College, your lecturers, tutors and academic advisors will provide you with guidance to understand and maintain academic integrity; however, it is also your responsibility to seek out guidance if and when you are unsure about appropriate academic conduct.

In the case of any allegation of academic misconduct made against a student he or she may request the guidance and support of a Griffith College Student Learning Advisor or Student Counsellor.

Please ensure that you are familiar with the Griffith College Academic Integrity Policy; this policy provides an overview of some of the behaviours that are considered breaches of academic integrity, as well as the penalties and processes involved when a breach is identified.

For further information please refer to the Academic Integrity Policy on the Griffith College website – Policy Library.
