

Course Code:	1523QCA
Course Name:	Drawing for Design
Semester:	Trimester 1, 2018
Program:	Diploma of Design
Credit Points:	10
Course Coordinator:	Dr Philip Whiting
Document modified:	16 th January 2018

Teaching Team

Your lecturer/tutor can be contacted via the email system on the portal.

Name	Email
Dr Philip Whiting	philip.whiting@staff.griffithcollege.edu.au
Jennifer Sanzaro-Nishimura	Jennifer.sanzaro-nishimura@staff.griffithcollege.edu.au

Staff Consultation

Your lecturer/tutor is available each week for consultation outside of normal class times. Times that your lecturer/tutor will be available for consultation will be given in the first week of lectures. A list of times and rooms will be published on the Griffith College Portal under the "myTimetable" link.

Prerequisites

There are no prerequisites for this course

Brief Course Description

Drawing for design is a 10 Credit Point course within the first semester of the Diploma of Design.

The Diploma of Design provides students with a pathway to:

- further university studies in Design and related degrees; or
- direct potential employment at base level entry.

Drawing is a fundamental means of visual research, visual communication and explanation that has the ability to transcend barriers of language, time and culture. It has the immediate capacity to depict unseen thoughts and condense the power of a subject or idea into a tangible form that is easily communicated to others. This course aims to develop critical thinking, observation and visual communication skills through the acquisition of creative visual strategies, drawing techniques and a culture of drawing as visual research practice. The course content includes drawing the human form, designing from nature and three dimensional drawing as both visual research, critical and conceptual thinking. All of this content is underpinned by the concepts, emergent challenges and opportunities to develop sustainable design perspectives and initiatives.

Rationale

Drawing for design forms the foundation to creative visual strategies and is the fundamental means of visual research, visual communication and explanation. In terms of individual development, drawing develops a better appreciation and understanding of visual research for design and allows us to expand our critical observation and conceptual thinking. In terms of communication, it allows us to present to others in a way that is immediately understandable. Both visual research and communication are essential tools for students entering 3 dimensional and 2 dimensional design industry.

Aims

The overall aims of this course are:

1. To enable students to develop essential skills in observation, visual research & analysis.
 2. To enable students to develop fundamental drawing skills to allow them to confidently communicate visually or explain the intent of ideas and develop these into two-dimensional or three-dimensional design concepts.
 3. To enable students to employ drawing and conceptualising skills in researching, developing and communicating design solutions to others.
-

Learning Outcomes

After successfully completing this course you should be able to:

- 1 Demonstrate skills in critical observation, visual research & analysis and interpretation using academic writing and/or images.
 - 2 Communicate information and ideas in a confident and appropriate visual and/or written manner.
 - 3 Present two-dimensional and three-dimensional visual information using a range of explanatory drawing techniques and formats.
 - 4 Use drawing as a primary and effective means to reveal, externalize and communicate innovative design initiatives critical observation and thinking.
-

Organisation and Teaching Strategies

The course presents assignments in two main modules or folios serving as an introduction to problem solving through visual research & analysis, critical thinking, critical observation and image making.

The course includes a range of formal, experimental and interpretive visual investigations.

Thematic, sequential and transformative approaches to assignment work will involve conceptual as well as practical issues.

Teaching methods include lectures, audio-visual presentations and studio demonstrations. Individual and group tuition is provided throughout the semester. A major emphasis will be placed on practical creative activities in the studio.

Lectures will be presented in relation to the assignments and course topics including creative thinking and conceptual development and the cultural context that images exist in.

A life model will be employed for the first assignment module dealing with observational studies and the human form.

Students will be notified in advance when projects necessitate outdoor classes or excursions.

Class Contact Summary

Studio contact hours will be 4 hours per week supported by scheduled lectures that support the teaching modules. There will be an expectation for you to complete and/or extend projects in your own time. This would normally equate to an additional 6 hours of individual work per week in or outside of the studio. This commitment of ten hours equates to the 10 credit points allocated to this course. Content activities are set out in the following weekly schedule.

Full attendance at all lectures, tutorial and workshop sessions **is both critical and mandatory** for students to successfully succeed in this course.

You are reminded that satisfactory Program Progression requires that attendance in classes is maintained at equal to or greater than 80%, and that GPA is maintained at equal to or greater than 3.5 with passing grades achieved in more than 50% of courses in any semester [please see Griffith College Policy Library - Program Progression Policy - for more information].

Content Schedule

Weekly Teaching Schedule

Week	Topic	Activity	Notes
1	Line and Shape Defining shape and space, defining positive forms negative space through contour line, tone & texture.	Lecture	Topics will be notified in Tutorials, and guidelines for Reading Response will be posted onto the portal The Reading Response is due in week 3
	Line, Shape & Form: defining shape, form and space, creating positive forms & negative space through variation of contour line	Tutorial	
	Weekly practice drawings based upon tutorial work	Practical	Practice drawings are based upon each weekly tutorials and workshops are a major part of the assessment process and marks
2	Visual Language: Composition and creation of meaning	Lecture	

	<p>Perception of Space, Shape & Form. Sighting and measuring techniques & devices</p>		
	<p>Elements & Principles of Design: Grammatical rules as applied to visual language</p> <p>Composition and juxtaposition to create meaning</p> <p>Sighting and measuring to gauge space, structure, shape & form relationships and distances</p>	Tutorial	
	<p>Weekly practice drawings based upon tutorial work</p>	Practical	Practice drawings on Visual Language should be based upon week 2 tutorials and workshop
3	<p>Tone and Volume Tonal Values: Create illusions of 3 dimensionality, volume and space through tone. Composition through visual organization and arrangement. Techniques of tonal drawing for texture and atmospheric suggestion of perspective.</p>	Lecture	
	<p>Tone and Volume: Understanding and describing volume and mass through tonal blending, hatching and cross-hatching. Exploring line, tone, texture and contrast through drawing</p>	Tutorial	Assessment Item 1: Reading Response due

	exercises Refining shape, space and suggested geometric & atmospheric perspective. Organising compositions through shape, and space. Textural drawing methods and techniques		
	Weekly practice drawings based upon tutorial work	Practical	Practice drawings in Tone and Volume should be based upon week 3 tutorials and workshop
4	Colour and Tone	Lecture	
	Organising compositions through colour theory shape, and space. Exploring line, tone, texture, contrast through the use of colour.	Tutorial	
	Weekly practice drawings based upon tutorial work	Practical	Practice drawings in Colour and Tone should be based upon week 4 tutorials and workshop
5	Life Drawing The definitive process to practice and understand the nature of Critical Observation and Visual Research in design	Lecture	
	Figure Drawing: Introduction to the human scale in terms of anatomy, proportion, posture shape & form as a foundation to ethnographic research	Tutorial	
	Weekly practice drawings based upon tutorial work	Practical	
6	Drawing as Ethnographic Practice	Lecture	

	Analysis of the simplified Human Form through critical observation and live visual research in terms of proportion and suggested movement	Tutorial	
	Assessment item 2 includes all tutorial work from weeks 1 – 6 including week 6 life drawing studies. Homework as practice drawings in A4 visual diary also relating to weeks 1 – 5 tutorial work	Assessment	Assessment Item 2: Observational and Analytical Process of Freehand Drawing due for submission in class.
7	Speculative Drawing: Isometric systems Introduce individual Assessment item 3 Design Research & group Assessment item 4 Concept Design & Model project.	Lecture	Design Research is due in week 9 for critique
	The language of three dimensional drawing and orthographic drawing Orthographic Projections: Isometric, axonometric, exploded views, plans, elevations and sections	Tutorial	
	Weekly practice drawings based upon tutorial work	Practical	Continue to research your individual area in relation to temporary homeless shelters
8	Drawing Systems:	Lecture	

	Single and Two Point Perspective, studio projects. .		
	Exercises in 3D Perspective systems to develop use of scale and proportion in perspective. Light & shade in perspective	Tutorial	
	Weekly practice drawings based upon tutorial work	Practical	Visualise your temporary homeless shelter as freehand drawings and constructed 3D perspective shapes and forms
9	Drawing Systems: Developed use of single and two point perspective	Lecture	
	Single & two point perspective exercises to draw more complex shapes and forms for graphic, product, interior design and architecture	Tutorial	Assessment item 3: Design Research due Week 9 Your practice perspective drawings as homework will also form part of this critique and evaluation of each student's research. This research in turn forms the basis for each group to design and develop a final group physical outcome for the homeless shelter.
	.	Practical	
10	Strategies for Creative Thinking	Lecture	
	Strategies for collaborative processes. Simple Model Making Work on concept visualisation project/task as required .	Tutorial	Each group is expected to construct a prototype and test its performance as part of the week 12 presentation & submission
	Work on concept visualisation	Practical	Group work on Folio 2

	project/task as required		
11	Narrative structure & time	Lecture	
	Storyboards and sequence Preparation of project as life size temporary homeless shelter construction and final drawings for presentation	Tutorial	
	Review final project and individual discussion	Practical	Groups are expected to continue to work on the project in their own time.
12	Concept Visualisation: Outdoor & studio group presentations & submission of final project	Tutorial	Assessment Item 4: Concept Design & Model due for presentation and submission

Assessment

This section sets out the assessment requirements for this course.

Summary of Assessment

Item	Assessment Task	Weighting	Relevant Learning Outcomes	Due Date
1	Reading Response	10%	1	3
2	Observational and Analytical Processes of Freehand Drawing	40%	1,2,3,4	6
3	Design Research	20%	1,2	9
4	Design Concept and Model	30%	1,2,3,4	12

Assessment Details

ASSESSMENT ITEM 1

Type: Reading Response

Due Date: Week 3

Weight: 10%

Task Description:

This is a preliminary introduction to academic research and critique writing. Students will read at least three set texts for comparison. You are analysing, critiquing and evaluating these set texts. Your opinion must be backed up with recognised written evidence by others. You may write in first person. A critique is a careful analysis of an argument to determine what is said, how well the points are made, what assumptions underlie the argument, what issues are overlooked, and what implications are drawn from such observations. It is a systematic, yet personal response and evaluation of two readings about the value and role of hand drawing and the impact or use of colour.

Criteria & Marking:

*There are **3 Readings for a written response essay** to be completed by week 3. These are handed in via Moodle Turnitin by the week 3 tutorial.

*Word Length: 500 – 800 of your **own** words for the reading response. As in all academic writing, direct quotes are considered to be **outside** this word count.

*Writing Style: The responses must be written in an academic essay style with an **introduction, a conclusion and 3-4 distinct paragraphs** that each explore one main point or idea. Please refer to books and online resources for academic writing skills if you need extra help with essay writing.

ASSESSMENT ITEM 2

Type: Observational and Analytical Processes of Freehand Drawing

Learning Objectives Assessed: 1, 2, 3, 4

Due Date: Week 6

Weight: 40%

Task Description:

This module involves the development of observational research and analytic skills through an examination of the 3D structures including the description of shape, form, proportion, mass and volume. Two weeks of Life Drawing (figure drawing) will also be introduced as part of folio 1. Tutorial work is supported by assessable practice drawings completed in your own time as homework Assessment will be progressive. You will be assessed on evidence of drawing practice, creativity and innovation, visual diary practice exercises and research.

Criteria & Marking:

* Set of weekly tutorial drawings: Three-dimensional form, Depth of visual research & enquiry (including personal experimentation), Media skills and technique development A3 or larger(weeks 1-6)

* Set of weekly Practice Drawings A4 Visual Diary (weeks 1-5)

ASSESSMENT ITEM 3

Type: Design Research

Due Date: Week 9

Weight: 20%

Task Description:

This is a preliminary introduction to academic visual research, critical observation and short critique writing. Students will research the temporary shelter needs of the homeless including past and present design solutions to the problem. You are analysing, critiquing and evaluating this research from different perspectives or needs.. Your understanding and opinion must be backed up with written and/or visual evidence by others. This is a careful analysis of the homeless issue with regards to the practical needs of portable temporary shelter of some kind for the homeless individual.. It is a systematic, yet individual response and evaluation of a particular research area in terms of people, their needs for shelter and the practical implications of a suitable portable structure as in-depth visual research.

Criteria & Marking:

*Design Research forms a critical part of this project where each student will investigate and critique a specific area of need for the homeless as well as past and existing solutions to the problem of providing suitable temporary shelter.

*This research will comprise of referenced found images, data and written text by others, your own sketches and any other material required.

*There is no word limit as such however the documented presentation of this research should be of a professional standard using suitable images and minimal text necessary to provide clarity and understanding with regards to the nature and outcome of your research findings. It is recommended that each page should have between 100 – 150 words as a general guide.

ASSESSMENT ITEM 4

Type: Concept Design and Model

Learning Objectives Assessed: 1, 2, 3, 4

Due Date: Week 12

Weight: 30%

Task Description:

This module uses a concept visualisation project based upon the research from Assessment Item 3. It involves the development of progressive visual research using freehand drawing observational and analytic skills through perspective drawing, figure drawings, orthographic projections for concept visualisation, as well as model making and simple construction The concept visualisation task demonstrates and brings together a combination of all learning throughout the semester.

Assessment will be progressive. You will be assessed on evidence and effective use of drawing practise, creativity and innovation, visual diary practise exercises, research as a response to the project brief.

Criteria & Marking:

Folio 2 is a collaborative group project using teams of three (3) students only. The focus is on designing a temporary portable shelter for the homeless

*Design concept presentation as a set of orthographic drawings: Three-dimensional form for construction

*Set of concept sketches: Depth of visual enquiry (including personal experimentation), Media skills and technique development.

* A full-size working model or prototype

Submission and Return of Assessment Items

Learning is only truly effective in this course when students and staff engage face-to-face; unless informed otherwise. To be eligible for assessments of their learning it is critical that students attend an absolute minimum of 80% of all tutorials and lectures in this course.

Presentation Requirements

Each presentation is to consist of work produced in response to the weekly tutorial exercises, and other work produced in association with the set practise drawing exercises.

All work and visual diary must be submitted in an A3 or A2 drawing folio constructed of card or plastic. Any works on paper (including life drawing studies) should be submitted flat in a folio **(NOT ROLLED)**

All assignments and supportive evidence of process and development should be clearly identified with full name and student number.

All practise drawings and supportive evidence of process and development should be presented in the form of an A4 visual diary, clearly labelled with student name, group number and dates of production over the period of the course.

Normally you will be able to collect your assignments in class within fourteen [14] days of the due date for submission of the assignment.

Retention of Originals

You must be able to produce a copy of all work submitted if so requested. Copies should be retained until after the release of final results for the course.

Extensions

To apply for an extension of time for an assignment, you must submit an Application for Extension of Assignment form to your teacher at least 24 hours before the date the assignment is due. Grounds for extensions are usually: serious illness, accident, disability, bereavement or other compassionate circumstances and must be able to be substantiated with relevant documentation [e.g. Griffith College Medical Certificate]. Please refer to the Griffith College website - Policy Library - for guidelines regarding extensions and deferred assessment.

Assessment Feedback

Criteria sheet feedback with generic comments will be made available within two weeks following submission. Additionally verbal feedback will be provided on the second project by your tutor.

Marks awarded for assessment items will be available on the on-line grades system on the Student Website within fourteen [14] days of the due date.

Generic Skills

Griffith College aims to develop graduates who have an open and critical approach to learning and a capacity for lifelong learning. Through engagement in their studies, students are provided with opportunities to begin the development of these and other generic skills.

Studies in this course will give you opportunities to begin to develop the following skills:

Generic Skills	Taught	Practised	Assessed
Written Communication		Yes	
Oral Communication	Yes	Yes	
Information Literacy	Yes	Yes	
Secondary Research		Yes	Yes
Critical and Innovative Thinking			
Academic Integrity		Yes	Yes
Self Directed Learning	Yes	Yes	
Team Work		Yes	Yes
Cultural Intelligence			
English Language Proficiency			

Additional Course Generic Skills

Specific Skills	Taught	Practised	Assessed
Creativity and Innovation	Yes	Yes	Yes
Ethical Behaviour in social/professional/work environments	Yes	Yes	Yes

Additional Course Information

All students should ensure they arrive prepared each week with basic drawing equipment, including but not limited to: **Pencils B, 2B, 4B, 6B and A3 cartridge paper sketch block** for each and every drawing class in Weeks 1 - 11. All students also require a regular A4 visual diary for practise drawings (Homework). Your lecturer/tutor will advise you regarding further materials and media to be purchased as they are required in the following weeks.

Please note that mobile phone cameras are not suitable and will not be permitted in the life drawing sessions.

Inexpensive A2 or A3 Portfolio (card or plastic) **Rolled drawings will not be accepted for any presentation.**

Visual diary A4 for practise drawings, process work, experimentation, and related research. Inexpensive A3 cartridge sketchblock.

Lead Pencils (HB, 2B, 3B, 4B, 5B) and graphite pencil
Charcoal (soft compressed or willow)
Conte Crayons (Black, white, sepia)
Pastels (optional)
Colouring pencils - good quality.
Scale ruler - 300mm
Adjustable set square or 45 degree and 60/30 degree set squares (optional)
Putty eraser
Plastic eraser

Academic Integrity

Griffith College is committed to maintaining high academic standards to protect the value of its qualifications. Academic integrity means acting with the values of honesty, trust, fairness, respect and responsibility in learning, teaching and research. It is important for students, teachers, researchers and all staff to act in an honest way, be responsible for their actions, and show fairness in every part of their work. Academic integrity is important for an individual's and the College's reputation.

All staff and students of the College are responsible for academic integrity. As a student, you are expected to conduct your studies honestly, ethically and in accordance with accepted standards of academic conduct. Any form of academic conduct that is contrary to these standards is considered a breach of academic integrity and is unacceptable.

Some students deliberately breach academic integrity standards with intent to deceive. This conscious, pre-meditated form of cheating is considered to be one of the most serious forms

of fraudulent academic behaviour, for which the College has zero tolerance and for which penalties, including exclusion from the College, will be applied.

However, Griffith College also recognises many students breach academic integrity standards without intent to deceive. In these cases, students may be required to undertake additional educational activities to remediate their behaviour and may also be provided appropriate advice by academic staff.

As you undertake your studies at Griffith College, your lecturers, tutors and academic advisors will provide you with guidance to understand and maintain academic integrity; however, it is also your responsibility to seek out guidance if and when you are unsure about appropriate academic conduct.

Please ensure that you are familiar with the [Griffith College Academic Integrity Policy](#); this policy provides an overview of some of the behaviours that are considered breaches of academic integrity, as well as the penalties and processes involved when a breach is identified.

For further information please refer to the Academic Integrity Policy on the Griffith College website – Policy Library.

Risk Assessment Statement

Safety in the Studio

It is important that you are informed about safety issues in the studio environment. Although we are not involved with dangerous mechanical or chemical processes, the possibility of an accident is still there.

FULLY ENCLOSED FOOTWEAR should be worn at all times. Thongs and sandals are not permitted.

When using cutting tools such as scalpels or Stanley Knives, ensure that you have adequate instruction on their safe handling and that blades are secure. Use metal safety ruler with a handle if possible. It is not safe to use plastic rulers for cutting. Ensure that you cut on a proper cutting mat and not on a table top. Cut materials with slow precision and NEVER hurry the job!

Spray Adhesive is banned from the studios and associated areas.

If you find any equipment or furniture that is damaged, do not use it. Please report to staff as soon as possible.
