2. Aims, Outcomes & Generic Skills

2.1 Course Aims

Accounting for Decision Making aims to introduce students to the basic concepts and principles of accounting and to develop an understanding of the role of accounting information in economic decision-making and organisational control. The course will provide students with an understanding of the purpose, format and content of key financial statements that external decision makers use to assist them in their investment and/or lending decisions.

The course also aims to provide students with an understanding of the role of accounting information in business planning, tactical and decision-making, and control by managers within organisations. During the process students will begin to develop critical analysis, evaluation and problem-solving skills.

2.2 Learning Outcomes

After successfully completing this course you should be able to:

- 1 Recall knowledge of the fundamental principles of Accounting principles and apply relevant accounting concepts to simple business scenarios
- 2 Identify the structure and content of basic financial statements and evaluate the overall financial position and performance of a business
- 3 Apply knowledge of budgeting, profit planning and cost-volume-profit analysis, in order to contribute information to assist managers in short term tactical decision-making.
- 4 Describe principles of capital investment analysis and working capital management

2.3 Generic Skills and Capabilities

For further details on the Generic Skills please refer to the Graduate Generic Skills and Capabilities policy.

Griffith College aims to develop graduates who have an open and critical approach to learning and a capacity for lifelong learning. Through engagement in their studies, students are provided with opportunities to begin the development of these and other generic skills.

Studies in this course will give you opportunities to begin to develop the following skills:

Jobs and Employment in the [Student Hub](#) can assist students with career direction, resume and interview preparation, job search tips, and more.

[IT Support](#) provides details of accessing support, information on s numbers and internet access and computer lab rules.

3.4 Other Information about your Learning

Attendance

You are expected to actively engage in all learning experiences and learning activities which underpin the learning content in this course. You are expected to engage with the learning content and learning activities outside of timetabled class times. This requires you to be an active agent of your learning. You are expected to bring all necessary learning resources to class such as the required textbook and /or Workbook. In addition, you are encouraged to BYOD (bring your own device) to class such as a laptop or tablet. This is not a requirement as computer lab facilities are available on campus, however, the use of such devices in the classroom is encouraged with appropriate and considerate use principles being a priority.

Preparation and Participation in Learning

In order to enhance your learning, you need to prepare before participating in the learning experiences. Absorb the learning content and complete the learning activities that are provided online before you attend the scheduled learning experiences. Make sure you complete the learning activities set each week, they are designed to support your learning. Active participation in your learning will enhance your success. Ask questions when something is unclear or when you want to bring some issue to your lecturer or tutor's attention; respond to questions to test your knowledge and engage in discussion to help yourself and others learn.

Consultation Sessions

Teachers offer extra time each week to assist students outside the classroom. This is known as 'consultation time.' You may seek assistance from your teacher on email or in person according to how the teacher has explained this to the class. Attendance during consultation time is optional but you are encouraged to use this extra help to improve your learning outcomes.

Course Learning Materials

Learning materials are made available to you in MyStudy on the Griffith College Portal. The learning materials are arranged in Modules. In each Module you will find the learning content, learning activities and learning experiences. Actively working your way through these course learning materials together with your lecturer or tutor will prepare you to succeed when completing the evidence of learning (assessment).

Self-Directed Learning

You will be expected to learn independently. This means you must organise and engage with the course learning content even when you are not specifically asked to do so by your lecturer or tutor. The weekly guide will be helpful to organise your learning. This involves revising the weekly course learning material and completing the learning activities. It also means you will need to find additional information to evidence your learning (assessment) beyond that given to you, and to construct your own response to a question or topic. All of this requires careful planning of your time. Expect to spend, on average, at least 10 hours per week including class time for each of your courses.

Program Progression

You are reminded that satisfactory Program Progression requires that attendance in classes is maintained at equal to or greater than 80%, and that GPA is maintained at equal to or greater than 3.5 [please see Griffith College Policy Library - Program Progression Policy - for more information].

Teacher and Course Evaluation

Your feedback is respected and valued by your lecturers and tutors. You are encouraged to provide your thoughts on the course and teaching, both positive and critical, directly to your lecturer and tutor or by completing course and lecturer evaluations via Griffith College's evaluation tool whenever these are available.

5. Evidence of Learning (Assessment Plan)

5.1 Evidence of Learning Summary

				
	Evidence of learning	Weighting	Learning outcome	Due Date
1	Module 1 Assignment	10%	1	End of Week 5
2	Mid Trimester Exam- Moodle Quiz	25%	2	End of Week 8
3	Weekly Online Content Review	20%	1,2,3,4	End of Week 2-6 and 8-12
4	Final Exam – Moodle Quiz	45%	3,4	Exam Period

5.2 Evidence of Learning Task Detail

(1) Module 1 Assignment

The module 1 assignment is designed to assess your understanding of basic concepts, techniques and principles introduced in Weeks 1 to 3 of the course. The exam covers chapters 1 - 4

(2) Mid-trimester examination

The mid-trimester online examination is designed to assess your understanding of basic concepts, techniques and principles introduced in Weeks 4 to 6 of the course. The exam covers chapters 5 - 7. Part of Chapter 8 will also be covered.

This assessment item provides early feedback on your performance. The technical cumulative nature of this course requires you to be competent in application of fundamentals to progress successfully through more complex topics introduced in the later parts of each module.

An exam advice will be placed on the portal outlining the format of the exam to help you prepare. The exam may consist of multiple choice and/or short answer questions as well as practical content. Questions may include an evaluation of your understanding of the content of real-world financial statements.

(3) Weekly Content Reviews

There are 10 weekly reviews in total during the trimester which corresponds with the 10 lecture topics and the chapters from the textbook which are studied in this course. The aim of this assessment item is to encourage you to engage regularly with the course material and the textbook and to keep up-to-date with the course material.

The weekly reviews commence in Week 2 and finish in Week 12. The online quizzes will only be open on the last day of each week, for a 48-hour period. Students will have only one attempt and designated time limit to complete each Quiz.

We will be closely monitoring how students are progressing. The review will consist of 10 multiple choice questions in an online quiz which will be marked and feedback given immediately. The review is an open book quiz, so you are able to use your notes to help you answer the questions.

The scores for the 10 weekly reviews will be used to determine your mark for this assessment. Each review is worth 10 marks and 2%. Total marks for this assessment item is 100 marks which is worth 20% of the total assessment.

(4) Final examination

The final exam, conducted at the end of trimester, will assess your overall understanding and level of attainment of the course learning objectives in an online exam format. Topics introduced in Weeks 8 to 11 will be assessed while competency in topics from Weeks 1 to 5 is assumed. Chapters covered in the final exam are 9,10,11 and 12.

NOTE: To obtain a minimum pass grade for the course you will have to achieve an overall combined result from **all** assessments of 50%.

5.3 Late Submission

An evidence of learning (assessment) item submitted after the due date, without an approved extension from the Course Coordinator, will be penalised. The standard penalty is the reduction of the mark allocated to the assessment item by 5% of the maximum mark applicable for the assessment item, for each working day or part working day that the item is late. Evidence of learning items submitted more than five working days after the due date are awarded zero marks.

Please refer to the Griffith College website - Policy Library > Assessment Policy for guidelines and penalties for late submission.

5.4 Other Information about Evidence of Learning

Retention of Originals

You must be able to produce a copy of all work submitted if so requested. Copies should be retained until after the release of final results for the course.

Requests for extension

To apply for an extension of time for an evidence of learning item, you must submit an [Application for Extension of Assignment](#) form to your teacher at least 24 hours before the date the assignment is due. Grounds for extensions are usually: serious illness, accident, disability, bereavement or other compassionate circumstances and must be able to be substantiated with relevant documentation [e.g. [Griffith College Student Medical Certificate](#)]. Please refer to the Griffith College website - Policy Library - for guidelines regarding extensions and deferred assessment.

Return of Evidence of Learning Items

1. Marks awarded for in-trimester evidence of learning items, except those being moderated externally with Griffith University, will be available on the Student Portal within fourteen [14] days of the due date. This does not apply to the final evidence of learning item in this course (marks for this item will be provided with the final course result).
2. Students will be advised of their final grade through the Student Portal. Students can review their final exam papers after student grades have been published. Review of final exam papers will not be permitted after the final date to enrol.
3. Marks for **all** evidence of learning items including the final exam (if applicable) will be recorded in the Moodle Course Site and made available to students through the Moodle Course Site.

The sum of your marks of evidence of learning items in this course does not necessarily imply your final grade for the course. Standard grade cut off scores can be varied for particular courses, so you need to wait for the official release of grades to be sure of your grade for this course.

6. Policies & Guidelines

Griffith College assessment-related policies can be found in the [Griffith College Policy Library](#) which include the following policies:

Assessment Policy, Special Consideration, Deferred Assessment, Alternate Exam Sitting, Medical Certificates, Academic Integrity, Finalisation of Results, Review of Marks, Moderation of Assessment, Turn-it-in Software Use. These policies can be accessed using the 'Document Search' feature within the [Policy Library](#)

Academic Integrity Griffith College is committed to maintaining high academic standards to protect the value of its qualifications. Academic integrity means acting with the values of honesty, trust, fairness, respect and responsibility in learning, teaching and research. It is important for students, teachers, researchers and all staff to act in an honest way, be responsible for their actions, and show fairness in every part of their work. Academic integrity is important for an individual's and the College's reputation.

All staff and students of the College are responsible for academic integrity. As a student, you are expected to conduct your studies honestly, ethically and in accordance with accepted standards of academic conduct. Any form of academic conduct that is contrary to these standards is considered a breach of academic integrity and is unacceptable.

Some students deliberately breach academic integrity standards with intent to deceive. This conscious, pre-meditated form of cheating is considered to be one of the most serious forms of fraudulent academic behaviour, for which the College has zero tolerance and for which penalties, including exclusion from the College, will be applied.

However, Griffith College also recognises many students breach academic integrity standards without intent to deceive. In these cases, students may be required to undertake additional educational activities to remediate their behaviour and may also be provided appropriate advice by academic staff.

As you undertake your studies at Griffith College, your lecturers, tutors and academic advisors will provide you with guidance to understand and maintain academic integrity; however, it is also your responsibility to seek out guidance if and when you are unsure about appropriate academic conduct.

In the case of an allegation of a breach of academic integrity being made against a student he or she may request the guidance and support of a Griffith College Student Learning Advisor or Student Counsellor.

Please ensure that you are familiar with the Griffith College Academic Integrity Policy; this policy provides an overview of some of the behaviours that are considered breaches of academic integrity, as well as the penalties and processes involved when a breach is identified.

For further information please refer to the Griffith College website - Policy Library > Academic Integrity Policy

Reasonable Adjustments for Assessment – The Disability Services policy

The Disability Services policy (accessed using the Document Search' feature with the [Policy Library](#)) outlines the principles and processes that guide the College in making reasonable adjustments to assessment for students with disabilities while maintaining academic robustness of its programs.
